

Meeting the NETS for Teachers Prerequisite Standards
NETS-T Pre-Admission Competencies Verification

Students will complete the pre-admission competency verification to identify your strengths or weaknesses based on national standards. This assessment will verify your technology competencies on the new NETS-T (National Educational Technology Standards for Teachers). The assessment includes artifacts and reflection that demonstrates your competency with the ISTE NETS-T standards as you prepare for the Technology Facilitation Endorsement and admission to the IT Master's Program. Students pursuing the eLearning certificate only are exempt from this assignment.

The NETS for Teachers were originally released in 2000, following the acclaimed NETS for Students (NETS-S) in 1998, which set the bar for integration of technology in education. The NETS-T 2000 defined the fundamental concepts, knowledge, skills, and attitudes for applying technology in educational settings.

Rapid advances in technology are putting new demands on educators and students. ISTE launched a refresh of the NETS-T in 2007 and unveiled the new NETS-T in 2008. The refreshed ISTE NETS will provide a framework for educators to use as they transition schools from Industrial Age to Digital Age places of learning.

For each of the 5 standards, you will demonstrate your competency through an artifact that meets the standard as well as a reflection showing your understanding of how to apply the standards in your workplaces. Application of these standards is a core skill needed as facilitators in your districts.

Create your documentation using a web-based technology like a wiki or GoogleSites:

1. Reflection on each of the 5 standards with a supporting artifact showing your competency with the standard and indicator(s).
2. Your reflection should include a complete description of how the artifact supports the standard.

National Educational Technology Standards for Teachers
COMPETENCIES VERIFICATION
ISTE Technology Standards & Performance Indicators for Educators (NETS-T)

Candidate Name: ID #

Directions: Read the main competency and the sub-competency. Think about your own skills and identify an artifact that shows your proficiency with the competency. Provide a description of the artifact here and comment on your strength or weakness in this area. Since this is an initial measure of your skills, do not worry if you do not have an artifact for each one. This exercise gets you thinking about these baseline standards. If you are not a teacher use the word "Learner" versus "Student", think about others you will be training or developing learning for. Decide if your competency with the standard approaches, meets or exceeds. Fill in the rubric score you think you should have. You will also document these artifacts on your wiki or a google site.

Artifacts		
1. Facilitate and Inspire Student Learning and Creativity <i>Teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, creativity, and innovation in both face-to-face and virtual environments. Teachers:</i>		
a. promote, support, and model creative and innovative thinking and inventiveness. b. engage students in exploring real-world issues and solving authentic problems using digital tools and resources. c. promote student reflection using collaborative tools to reveal and clarify students' conceptual understanding and thinking, planning, and creative processes. d. model collaborative knowledge construction by engaging in learning with students, colleagues, and others in face-to-face and virtual environments.	Provide a description of the artifact: I am attaching a document with the email string for one of my current projects.	Comments on your strengths or weaknesses: Standard 1a and 1d. In my career I have had to be creative in how to meet clients' needs due to limited time and budgets. I have colleagues/clients all over the globe, so using email, Webex, and other digital forms of communication or part of my day to day experiences. Need to concentrate on getting 1b and 1c into my toolbox. My Score: 1 Approaches 1 Meets 2 Exceeds 3
2. Design and Develop Digital-Age Learning Experiences and Assessments <i>Teachers design, develop, and evaluate authentic learning experiences and assessment incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the NETS•S. Teachers:</i>		
a. design or adapt relevant learning experiences that incorporate digital tools and resources to promote student learning and creativity. b. develop technology-enriched learning environments that enable all students to pursue their individual curiosities and become active participants in setting their own educational goals, managing their own learning, and assessing their own progress. c. customize and personalize learning activities to address students' diverse learning styles, working strategies, and abilities using digital tools and resources. d. provide students with multiple and varied formative and summative assessments aligned with content and technology standards and use resulting data to inform learning and teaching.	Provide a description of the artifact: None	Comments on your strengths or weaknesses: I have no experience with this Standard. My Score: 0 Approaches 1 Meets 2 Exceeds 3
3. Model Digital-Age Work and Learning <i>Teachers exhibit knowledge, skills, and work processes representative of an innovative professional in a global and digital society. Teachers:</i>		

Artifacts		
<p>a. demonstrate fluency in technology systems and the transfer of current knowledge to new technologies and situations.</p> <p>b. collaborate with students, peers, parents, and community members using digital tools and resources to support student success and innovation.</p> <p>c. communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital-age media and formats.</p> <p>d. model and facilitate effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources to support research and learning.</p>	<p>Provide a description of the artifact:</p> <p>I am attaching a PowerPoint presentation that I created as part of a project to review the current state of Near Field Communications (NFC) in the Banking Industry.</p> <p>I found all my sources through a web-based search for publically available data.</p>	<p>Comments on your strengths or weaknesses:</p> <p>Standard 3a-d</p> <p>Ever since I entered the workforce in 1992, through my Undergraduate and Graduate Studies, various jobs and responsibilities, and to my current position, technology has been an integral part of my work. And, it is constantly changing.</p> <p>This is my strongest area – I have used many versions of Microsoft Office, SPSS, and even online Survey tools. I have effectively taught others how to use them as well.</p> <p>My Score: 3</p> <p>Approaches 1 Meets 2 Exceeds 3</p>

4.Promote and Model Digital Citizenship and Responsibility

Teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices. Teachers:

<p>a. advocate, model, and teach safe, legal, and ethical use of digital information and technology, including respect for copyright, intellectual property, and the appropriate documentation of sources.</p> <p>b. address the diverse needs of all learners by using learner-centered strategies providing equitable access to appropriate digital tools and resources.</p> <p>c. promote and model digital etiquette and responsible social interactions related to the use of technology and information.</p> <p>d. develop and model cultural understanding and global awareness by engaging with colleagues and students of other cultures using digital-age communication and collaboration tools.</p>	<p>Provide a description of the artifact:</p> <p>The NFC PowerPoint presentation also helps to cover my strengths in this Standards</p>	<p>Comments on your strengths or weaknesses:</p> <p>Standard 4a and 4c.</p> <p>In an 18 year career in Marketing Research, knowing the methodologies used and appropriately identifying sources is imperative to establishing credibility with my clients.</p> <p>Standard 4b and 4d</p> <p>Where I see room for improvement is transferring that knowledge to others in a productive way that takes their learning styles into account.</p> <p>My Score: 2</p> <p>Approaches 1 Meets 2 Exceeds 3</p>
--	---	--

5.Engage in Professional Growth and Leadership

Teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community by promoting and demonstrating the effective use of digital tools and resources. Teachers:

<p>a. participate in local and global learning communities to explore creative applications of technology to improve student learning.</p> <p>b. exhibit leadership by demonstrating a vision of technology infusion, participating in shared decision making and community building, and developing the leadership and technology skills of others.</p> <p>c. evaluate and reflect on current research and professional practice on a regular basis to make effective use of existing and emerging digital tools and resources in support of student learning.</p> <p>d. contribute to the effectiveness, vitality, and self-renewal of the teaching profession and of their school and community</p>	<p>Provide a description of the artifact:</p> <p>None</p>	<p>Comments on your strengths or weaknesses:</p> <p>I have no experience with this Standard.</p> <p>My Score: 0</p> <p>Approaches 1 Meets 2 Exceeds 3</p>
